IPS is the first electric autonomous sprayer with continuous jet in the world. Our sprayer allows pulverization of any liquid product or low pressure cleaning simply by immersing the hose and its suction strainer in any container. Every part of the sprayer in contact with the product is made of brass or plastic used in the industry (no parts made of aluminium). The joints of the IPS are made of Viton and the nozzles are made of PP and POM. Our sprayer is compatible with every pulverizable liquid.

Flowrate is controlled by the trigger, providing a continuous jet and facilitating the application of chemicals. You can also adapt every soda bottle with a standard neck in order to use small quantities of product or even homemade preparations. With its continuous jet and incomparable mist nozzle, IPS is very economical, using 3 to 4 times less liquid!

CDX HARD SURFACE EXTRACTOR

A powerful and versatile portable extractor that is specifically designed for high-pressure cleaning of hard surfaces. With an adjustable 400 to 1200 PSI pump, you can clean tile, concrete, and everything in between!

Turbo Force Tile & Grout Cleaning Tool

The Turbo Force 12-inch Turbo Hybrid operates at pressures up to 2,500 PSI and will clean 400-1,500 square feet per hour. Plus, the patented automatic vacuum compensator leaves the floor drier, which will really thrill your customer. In addition to being lightweight, the Turbo Hybrid is made from extremely durable stainless steel, so it can withstand the bumps and bruises of normal or heavy-duty use. The comfort grip non-slip handle relieves pressure on the hands and wrists, while ensuring your fingers won't slip.

The "ELIMINATOR" is a radio controlled, water-less, low pressure, low flow spray SYSTEM designed by Serum Products for our Remediation and Disaster Recovery Contractors. The Serum Eliminator System is designed to work for years reducing the labor required for remediation cleanup, reducing the time required to complete the clean up job and drastically improving surface appearance. Enabling contractors to bid more jobs and turn them faster with better results.

WWW.SERUMSYSTEMS.COM

AUTOMATIC ACCELERATOR MIXING

The "ELIMINATOR" is designed to spray our Serum 1000 by itself or accurately down stream inject 1 part Accelerator with 17 parts Serum 1000 accelerating the Serum 1000 to a more aggressive level without damage to the wetted metal and plastic parts, seals and "O" rings.

UNIT SHOWN IS A SPECIAL EDITION MODEL THAT IS NOT CURRENTLY AVAILABLE FOR RETAIL.

FLIR E8™ Infrared Camera with MSX® & WiFi

Now you can afford the ultimate inspection tool. Gain the competitive advantage and take care of more customers. Blow them away with dramatic MSX thermal images that clearly reveal problems from sources of energy loss, moisture intrusion and structural issues to overheating electrical and mechanical equipment.

\$2,999

FLIR C2™ Compact Thermal Imaging System

The FLIR C2 is the world's first full-featured, pocket-sized thermal camera designed for a wide range of building and electrical/mechanical applications. Keep it on you so you're ready anytime to find hidden hotspots, energy waste, structural defects, plumbing clogs, HVAC issues, and other problems. FLIR C2 makes it more affordable than ever to add the powerful advantage of thermal imaging.
